

ABOUT US

A dog lives his/her life similar to how a man would, and you can get tactical no matter if it's 2-legged-living or 4-legged-living.

With the founding concept of a lifestyle and values that "Begin with Good Gear", OneTigris has been committed to providing users with high-quality military standard tactical equipment, camping gear and pet gear since summer 2014. We specialize in integrating tactical style with urban life and outdoor activities.

URBAN K9

(EVERYDAY GEAR FOR EVERYDAY PURPOSES)

Tactical gear is now highly popular among general users due to its quality, affordability, and rugged style. Pet owners and dog handlers appreciate our touch of MOLLE compatibility, military styled material, and personalization possibilities through patch panels and extra K9 style.

RUGGED K9

(OUTDOOR GEAR FOR CHASING THE WILD)

Tactical outdoor dog gear such as pet mats, beds, treat pouches and car seat protective covers are designed with durability and versatility in mind, with the ambition to inspire an active lifestyle through good gear for you and your pup.

A man wearing a black cap, sunglasses, a grey hoodie, and a high-visibility yellow and orange safety vest is leaning forward, interacting with a black and white dog. The dog is wearing orange and black goggles and a black harness. They are in a field of dry grass with a blue sky and clouds in the background.

WORKING K9

(SAR AND K9 DUTY GEAR FOR THE BRAVE)

OneTigris works with certified K9 training teams and experienced dog handlers to deliver gear that boosts efficiency for different missions. Our K9 ambassadors include airport wildlife control dogs, anti-poaching dogs, search and rescue dogs and PTSD dogs. Each piece of OneTigris gear goes through gear testing by professionals to ensure their quality and usability.

WORKING K9

(TRAINING GEAR FOR HONING EXCELLENCE)

K9 handlers love our patent protected structures for canine power boosts, along with duty belts, training/exporation leashes, treat totes and many other practical accessories to help you and your canine partner bond through efficient training sessions and down time.

WORKING

(IN HONOR WE SERVE THE HONORABLE)

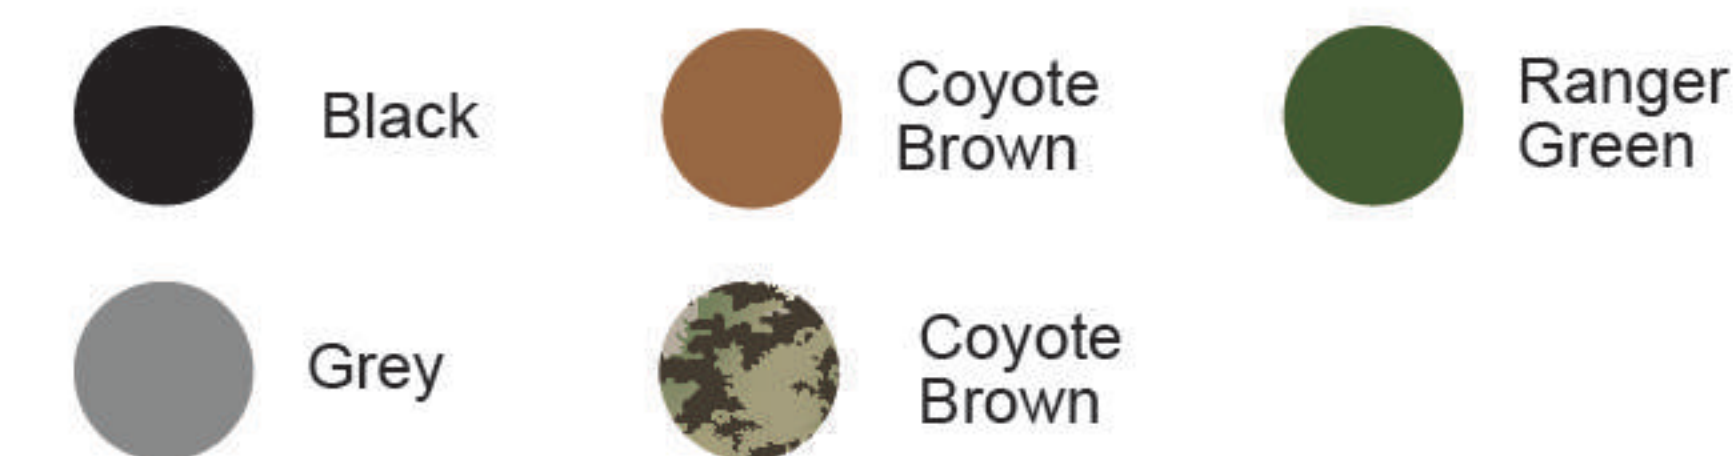

Service dogs and their handlers hold a very special place at OneTigris. We understand the specific gear needs of PTSD support dogs and mobility assistance dogs to name a few, and we design wear gear and add-ons to cater to their daily needs, including but not limited to medical kit pouches, patch and signage panels, a customizable carry system, special handles and ID badge holders.
